

Let's observe traffic rules!

Stop the traffic accident! Observe morals and rules!

Fatal traffic accidents occurred frequently in Seto city. A traffic accident is never somebody else's problem. It is a close problem that just a little carelessness may cause to everyone everywhere. Let's make further effort towards careful behavior by paying full attention to traffic rules in order not to be involved in a traffic accident or to cause one. Please talk about traffic safety with your family including children and the elderly, so that all the family members can lead a safe life without accidents.

To drivers:

Please observe the following five rules of safe driving.

1. Safe speed.
2. Slow down at curves.
3. Stop and let the pedestrians cross the road.
4. Safe driving at an intersection.
5. No drunk driving.

To pedestrians:

Stop at an intersection or a corner, and make sure of safety looking left and right. Don't rush into the pedestrian crossing even when the light turns green. Look both ways to make sure no cars are coming.

Attract drivers' attention by bright clothing or reflector at night.
